Customer Testimonials

Dr. Prasad Joshi – Pune

I am using ERGOPTIX Magnifying Loupe with LED Headlight & I am really impressed with the Galilean lens system. I am getting very clear corner to corner bright image without any spherical or chromatic aberration. I am able to choose my own working distance & it is helping me to maintain my natural body posture. The loupe is very light in weight & I strongly recommend it to all the dentists.

Dr. Rajeshree Kamath – Bangalore

I am using ERGOPTIX Magnifying Loupe and the quality of the loupe is superb, I am getting very sharp & clear vision. LED Headlight is also very good & I am able to adjust the brightness with the 4 level intensity controller. I am satisfied with their after sales service & I am recommending it to many of my colleagues.

Dr. Ratnadeep Jadhav – Pune

Superb quality, excellent after sales service. ERGOPTIX Loupe is very light weight & comfortable to wear. I am getting sharp & clear vision. I am able to work with more precision & accuracy with the help of ERGOPTIX Loupe.

Dr. Angira Tendulkar – Pune

I am using ERGOPTIX MAGNIFYING LOUPES (2.5x) WITH LED HEADLIGHT & I am very much satisfied with the quality of the loupe. I have been very comfortable right from day one, didn't have any headache issues. The Galilean Lens System is giving very clear & sharp image. The LED Headlight is also very good & is giving a bright white light with 4 varying intensities. Hence, it's very simpler to work in posterior quadrants and perform better dentistry. I am satisfied with their after sales service. Thanks to ERGOPTIX for making my dental life more clearer and brighter.

Dr. Milind Naphade – Amravati

ERGOPTIX Magnifying Loupe is best in quality & comparable to any loupe internationally. I am very satisfied with the corner to corner clear vision without any aberration & pure white light from the LED Headlight. My posture is now correct with the personalized working distance they offer.

Dr. Karishma Talreja – Mangalore

Dr. Ajay Kakar – Mumbai

I have been using loupes in my dental practice for almost a decade. I have recently started using the ERGOPTIX loupe and I have to admit that it is very finely crafted and a very classy item. I have used it along with the LED light. The Galilean lens is extremely impressive and the best aspect of the entire assembly is the extreme attention to fine detail right from packaging to the final product. There is no distortion while working and the clarity of the field is excellent. I was very pleased with the way I could place my customized reading lens into the framework of the loupe. The LED light is excellent with the multiple intensity settings and the available filter to prevent polymerization is a very thought full idea. I would give a full 5 stars to this product.
